

Index	Author	Poster presentation title
Session: Coastal erosion and dynamical processes in the nearshore zone		
P1	Belova Nataliya	Monitoring of the thermoabrasional and accumulative coasts near the underwater gas pipeline route across the Baydaratskaya Bay, Kara Sea
P2	Bubnova Ekaterina	Suspended matter concentration alongside the northern coastline of Kaliningrad region (South-Eastern part of Baltic Sea)
P3	Dobrovolskaya Anna	Abnormal state of the northern segment of the Vistula Spit
P4	Dorokhova, Evgenia	Sediment mapping and transport pathways in the nearshore zone of the Russian part of South-Eastern Baltic Sea
P5	Fomin Vladimir	DYNAMICS OF THE NEARSHORE ZONE OF KALAMITSKIY GULF (BLACK SEA) UNDER INFLUENCE OF WIND WAVES
P6	Gavrilov Anatoly	CRYOGENIC DYNAMICS IN THE COASTAL ZONE OF THE LAPTEV AND EAST SIBERIAN SEAS
P7	GORYACHKIN YURI N.	Coastal erosion in the Gulf of Kalamita as a result of long-term anthropogenic influence.
P8	Illarionova Margarita	M. Illarionova. The influence of sea ice on the sea coast of Shantar Islands
P9	Korzinin Dmitry Victorovich	Some features of the equilibrium coastal profile for different initial slopes based on modelling study
P10	Leontyev Igor Olegovich	An Artificial Beach as a Means for Sea Coast Protection from Storm Surges (by the Example of the Eastern Gulf of Finland)
P11	Krylenko Viacheslav	SHORT-PERIOD DYNAMICS OF THE ANAPA BAY-BAR SHORELINE
P12	Krylenko Viacheslav	ANALYSIS OF LONG-TERM DYNAMICS OF THE ANAPA BAY-BAR SEA EDGE
P13	Kosyan Ruben	VARIABILITY OF THE SUSPENDED SEDIMENT DYNAMICS UNDER IRREGULAR WAVES
P14	Kosyan Ruben	Methodological aspects of the suspended sediment concentration measurement in the coastal zone
P15	Sakamoto, Ryo	Coastal alteration and changes in shoreline morphology due to artificial structures in Miiraku Town on Fukue Is. in the Goto Archipelago
P16	Saprykina Yana	Parameterization of nonlinear wave transformation above underwater structures
P17	Sergey Kuznetsov	Physical interpretation of wave breaking criteria
P18	Shabanova Natalia Nikolaevna	Interannual variability of Coastal Dynamics hydrometeorological factors in Pechora and Kara Seas
P19	Bobykina V.P., Karmanov K.V., Chubarenko B.V.	Morphodynamics of the shores of the Vistula Spit (the Baltic Sea) in a period of 2002-2015 by results of in-situ measurements
Session: Coastal systems and their dynamics (from coast to water and from water to coast)		
P20	Chechko Vladimir	SEDIMENT BALANCE OF THE VISTULA LAGOON
P21	Dunaev Nikolay	Accumulative Coasts as reliable indicators of the kinematics of the sea level during the Holocene
P22	Godin Eugeny	THE CURRENT STATE OF THE BLACK SEA COASTAL GEOSYSTEMS IN THE NORTH-EASTERN SECTOR
P23	Karmanov Konstantin	Deflation processes on the sea shore of the Curonian Spit
P24	Khaliulin Alexey	SPECIALIZED OCEANOGRAPHIC DATABASE FOR INFORMATION SUPPORT OF THE BLACK SEA COASTAL ZONE STUDY
P25	Kosyan Maxim	INFORMATIONAL SUPPORT FOR COASTAL FORECAST DEVELOPMENT OF RUSSIAN TIDELESS SEAS
P26	Krechik Viktor	A different-scale variability of the vertical thermal structure of the Kaliningrad region's marine coastal waters

P27	Lukyanova Anna	Numerical simulation of the semidiurnal tidal wave impact on the Black Sea climatic circulation
P28	Marina Tsyganova	Self-purification of sea coastal water areas under climatic and anthropogenic change
P29	Sergeev Alexander	Application of onshore laser scanning data for mathematic modeling of coastal profile changes
P30	Silvestrova Ksenia	Surface GPS-drifters for study coastal water dynamics in the Black Sea. Results and experience from 2013 to 2015 year.
P31	Spiridonov Michail	Geological hazards of Baikal coastal zone
P32	ZHU, XIAO HUA	Mapping tidal currents and residual currents by use of Coastal Acoustic Tomography
Session: Climate change in the changing world. Coastal adaptation to climate change		
P33	Amantov Aleksey	Ice Age and Coastal Adaptations
P34	Critto Andrea	Climate change risk assessment: a review of tools, methods and best practices for the oil and gas sector
P35	Derevenets Elizaveta Nikolaevna	To the question of the impact of climate change on the ecological state of artificial plantations of pine Pitsunda in the seaside area of Gelendzhik
P36	Malinin Valery Nikolaevich	Variations of Sea Level and Global Climate in Modern Conditions
P37	Hisamatsu, Rikito	Impact assessment on storm surge risks to containers considering global warming.
P38	Iio Yoshiyuki	Climate Change to change the world, "Human Revolution" to change the future: - The Importance of Global Citizens based on "Human Revolution"-
P39	Popova Alice	Innovative technologies for decision support in socio-economic development within coastal systems of the Russian Northern seas taking into account natural risks and adaptation to climate changes
P40	Soldatenko Sergei	AN INTEGRATED MODELING SYSTEM FOR ASSESSING AND MANAGING THE RISKS OF CLIMATE CHANGE
P41	Zhanna Stont	Meteorological conditions affecting the Curonian Spit dune formation (south-eastern Baltic coast)
Session: Coastal and marine ecosystems: monitoring and modelling		
Sub-session: Approaches to and issues of processes in the coastal areas modelling and monitoring		
P42	Bagaev Andrei	AN APPROACH TO PARAMETERISATION OF COASTAL SOURCES OF MICROPLASTICS PARTICLES IN NUMERICAL MODELS
P43	Bagaeva Margarita	Baltic amber migrations as a model of microplastics behaviour in the sea coastal zone
P44	Burnashov Evgenii	Information-Prediction Automatic System for the sea shore of Kaliningrad Oblast (IPAS): use in 2006-2015 and development prospects
P45	Danchenkov Aleksandr Romanovich	Modern technology in dune complexes monitoring on the Vistula Spit
P46	Esin Nikolai Igorevich	Correlation of the Black, Marmara And Aegean seas during the Holocene
P47	Khatmullina, Liliya	Experimenting on settling velocities of negatively buoyant microplastics
P48	Korablina Anastasia	Modeling storm surges and wave climate in the White and Barents Seas
P49	Ogorodov, Stanislav	COMPREHENSIVE MONITORING OF ICE GOUGING BOTTOM RELIEF AT KEY SITES OF OIL AND GAS DEVELOPMENT WITHIN THE COASTAL-

		SHELF ZONE OF THE RUSSIAN ARCTIC SEAS
P50	Takahashi, Satoru	Seasonal Variation of Transportation of Asari Clam, <i>Ruditapes philippinarum</i> , Larvae in Hiroshima Bay.
P51	Zhurbas Victor	EDDY FORMATION BEHIND A COASTAL CAPE BY TRANSIENT LONGSHORE WINDSTRESS (NUMERICAL EXPERIMENTS)
Sub-session: Study and monitoring of coastal and marine ecosystems		
P52	Andrulionis Natalia	Site-Specific Equations of State for Coastal Waters and Inland Water Bodies
P53	Deriugina Natalia	Problem of heavy metal surface sediment contamination in the eastern Gulf of Finland
P54	Falomeev Stepan Dmitrievich	Monitoring of coastal ecosystems by method of remote sensing in the short-wave range of radio waves.
P55	Filobok Anatoly	Azov-Black Sea coast of Krasnodar region: estimation of recreational potential based on the dynamic processes, natural and anthropogenic factors
P56	Goncharenko Igor	COMPARATIVE CHARACTERISTIC OF SEA RADIANCE COEFFICIENT SPECTRA MEASURED REMOTELY IN COASTAL WATERS OF FIVE SEAS
P57	Gumenyuk Anna	Landscape study of Cheboksary and Kuybyshev reservoirs coasts for recreational using
P58	HAYASHI Mitsuru	Analysis of Marine Phytoplankton in the Yodo River Estuary by the Numerical Ecosystem Model
P59	HIDEKI KOKUBU	A FUNDAMENTAL STUDY ON CARBON STORAGE BY ZOSTERA MARINA IN ISE BAY JAPAN
P60	Karmanov Konstantin	Long-term dynamics in locations of coastline of the Vistula Spit by results of the satellites images analysis
P61	Kawai, Hiroshi	Species diversity and the threat of introduced macroalgal species arriving on Northwestern American shores via Japanese Tsunami Marine Debris (JTMD)
P62	Kosyan Alisa	First case of imposex in <i>Neptunea convexa</i> (Gastropoda: Buccinidae) from bathyal depths (Sea of Okhotsk, >1400 m)
P63	Kovaleva Elena	Distribution of dissolved methane in surface coastal waters of the northeastern part of the Black Sea
P64	Krylenko Sergey	CHARACTERISTICS OF THE CLIFF PLANT COMMUNITIES OF THE TUAPKHAT MASSIF
P65	Makamas Sutthacheep	Monitoring coral recovery at nearshore coral reefs in Phangnga Province, the Andaman Sea following the 2010 coral bleaching event
P66	Mona Dinkova Stancheva	HEAVY METALS IN WATER, SEDIMENTS AND MARINE FISHES FROM BULGARIAN BLACK SEA
P67	Mona Dinkova Stancheva	POLYCHLORINATED BIPHENYLS IN EDIBLE FISH FROM BLACK SEA, BULGARIA
P68	NAKASHIMA, TADASHI	What does happen in the natural forest watershed of Japan?
P69	Navia Diaz, Juan David	EXTREME VALUES OF SEA SURFACE TEMPERATURE ASSOCIATED WITH LONG-PERIOD PHENOMENA OCCURRED DURING 1960-2015 IN THE COLOMBIAN PACIFIC OCEAN
P70	Otani Sosuke	Transfer efficiency from primary producers to <i>Ruditapes philippinarum</i> on an intertidal flat in Hiroshima Bay, Japan
P71	Podymov Oleg	Long-term monitoring of seasonal and interannual variability of hydrological structure in coastal zone of the north-eastern Black Sea
P72	Podymova Tatiana	The distribution of radon volumetric activity above the surface of Taman Peninsula
P73	Romanova Alexandra	Carbonate dissolution and ultrastructural breakdown in planktonic foraminifera in The Sea of Okhotsk
P74	Savenko Alla V.	Comparative analysis of transformation of dissolved matter runoff in

		the mouth areas of the Mezenь™ River and other rivers of the White Sea basin
P75	Savenko Alla V.	Distribution of dissolved chemical elements in the Yenisei River estuary and adjacent water area of the Kara Sea
P76	Shilin Mikhail	Hierarchical regionalization system for Barents and Kara seas in connection with the multi-level environmental monitoring of macro-projects
P77	Slepchuk Kira	Availability of numerical mathematical models to solve the applied problems of water quality management of shelf ecosystems
P78	Snejanka Petrova Moncheva	ON THE RESPONSE OF COASTAL PHYTOPLANKTON COMMUNITIES TO ANTHROPOGENIC AND CLIMATIC CHANGES
P79	Vasechkina Elena	INDIVIDUAL VARIATION OF GROWTH AND FILTRATION RATES OF MUSSELS MYTILUS GALLOPROVINCIALIS LAM.
P80	Yeemin, Thamasak	Assessing coral reef resilience and management intervention in the Western Gulf of Thailand
Sub-session: Ecological sensitivity of coastal areas: anthropogenic loads and natural disasters		
P81	Burnashov Evgenii	Comparative analysis of the influence of natural and anthropogenic factors on the Vistula Spit fore dune erosion (the Baltic Sea)
P82	Domnin Dmitry	Mathematical modeling of nutrient loading from small catchments of the Vistula Lagoon
P83	Elkin Dmitrij	LABORATORY STUDIES OF THE FORMATION MECHANISMS OF EDDIES IN ROTATING AND NON-ROTATING FLUID DUE TO SPATIALLY NON-UNIFORM WIND FORCING
P84	Ermolov Alexander Alexandrovich	ECOLOGICAL AND GEOMORPHOLOGICAL ASSESSMENT OF THE VULNERABILITY OF THE COASTS OF THE KARA SEA TO THE OIL SPILL
P85	Fedorov Yury	The impact of wind conditions on the levels of total iron content in The Sea of Azov
P86	Khatmullina, Liliya	Accumulation of plastic fragments and microplastics on the beaches in the South- East Baltic Sea
P87	Krasnoyarskiy Boris	Bottom sediments of lakes and streams of Dvina Bay of The White Sea coastal areas as an indicator of anthropogenic impact (by the example of mercury pollution)
P88	Krek Alexander Vladimirovich	Concentration of heavy metals and oil products in the seabed sediments off the coast of the Curonian Spit (the Southeastern part of the Baltic Sea)
P89	Krek Alexander Vladimirovich	Oil pollution of the sea surface of the Southeastern Baltic and possible directions of its propagation
P90	Medvedeva Nadezda	IMPACT OF NONYLPHENOL ON THE PHYSIOLOGICAL ACTIVITY OF FUNGI FROM THE COASTAL AREA OF THE GULF OF FINLAND
P91	Romanova Alexandra	INTERANNUAL VARIATIONS IN BENTHIC FORAMINIFERA ASSEMBLAGES UNDER MARICULTURE SITES IN ALEKSEEV BAY (POPOV ISLAND, THE SEA OF JAPAN)
P92	Rubanov Yury	Cleaning up emergency oil spills from the water surface with magnetic adsorbents
P93	Sitina Natalya	Geoecological characteristic of the Cheboksary reservoir coast
P94	Slepchuk Kira	Extreme degradation of water quality and fish suffocation phenomena in the marine estuary
P95	Zimovets Alina	The regularity of heavy metals distribution and behavior in the bottom sediments on the profile B«Northern Dvina River ь™ White SeaB»
Session: Sustainable use and development of coastal resources: effective management and approaches		
P96	Anai Takaya	The "MIZBERING" Zuibaiji River Conference ~ A Search for Continuity in the Zuibaiji River Basin~

P97	Hirai Ken	Recognizing ecosystem services through education for sustainable development that utilizes the sea in the region
P98	Krylenko Marina	PERSPECTIVES OF THE PRACTICAL USE OF THE KIZILTASH LIMAN GROUP
P99	Mari Maeda	Environmental Education for Schoolchildren in a Seawater Pond for Creating a Satoumi
P100	Maya Matsushige	The effects of a seaside environmental education program for preschool children as seen in the contents of before-and-after drawings
P101	PABLO, TORRES BLANCO	Possibilities of Implementation in the Spanish Coast, of Commercial and Pre-commercial Wave Energy technologies.
P102	PABLO, TORRES BLANCO	A NOVEL WAVE ENERGY CONVERTER
P103	Sadao Nakaoka	Environmental Study: Learning the Cycle of Life by Connecting Sea and Soil of Amagasaki
P104	Tamiji Yamamoto	Designing an Effective Action Plan for Sustainable Local Resources and the Coastal Environment: A Case Study of Mitsu Bay, Hiroshima, Japan
Sub-session: Construction and exploitation of hydraulic engineering structures and dredging in the coastal areas		
P105	Gutierrez-Bolivar, Oscar	Sustainability in the future development of the maritime transport in Cuba
P106	Konstantin Makarov	THEORETICAL BASES OF PORT AREAS AND ACCESS CHANNELS DEPOSITION CALCULATION
P107	Vasilenko Marina	Features of processes of biodestruction of surfaces of hydraulic engineering constructions
Sub-session: Legal and political issues of enclosed coastal seas management		
P108	Gogoberidze George	The principles and activities of the national scientific development strategy in the Arctic zone of the Russian Federation
P109	Gutierrez-Bolivar, Oscar	Scenarios for an expanding demand of tourism on the coasts of Cuba
